

ABSTRACT OF THE DISCLOSURE

- 5 A first embodiment of a money tube includes a centrally divided tube body having a first end, a second end, and a central portion. The tube body is composed of a first body portion and a second body portion. The first body portion includes the first end and defines a first central connector. The second body portion includes a second end and defines a second central connector. The first and second central connectors engage each other at the tube body central portion when connected to each other to hold the first body portion and the second body portion together.
